

*Bringing fresh air to the minds of our future*

# Unit Ventilators

**MAXAIR has been manufacturing custom unit ventilators specifically designed for educational facilities for over 10 years. Our equipment operates at less than NC 30 at two feet away.**

## Our Specialty:

- Custom Classroom Unit Ventilators
- Displacement Unit Ventilators
- Geothermal Unit Ventilators

The HVAC industry is continuously changing and MAXAIR is a "custom" manufacturer. This allows us to adapt to customers evolving needs while exceeding the strictest guidelines in air quality, humidity control, and sound levels in the classroom.

## MAXAIR Features:

- Heavy duty steel cabinet
- Powder coated finish
- Factory installed piping & controls
- Upflow, downflow, and horizontal configurations
- Two year parts warranty
- Easy maintenance and serviceability
- Lowest overall installation cost
- Industry's smallest footprint
- Ultra quiet operation
- ETL Certified

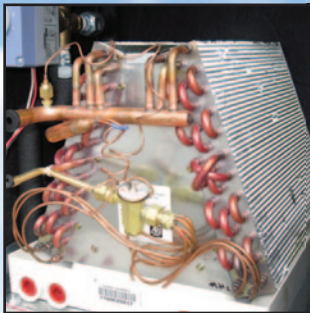

# Providing Customized High Quality Products
